

**“We don’t
take stability
for granted in
Kettering.
That’s why
we’re voting
FOR ISSUE 3
on May 4th.”**

***-- Sondra &
Harry Vearn***

“Friends ask why we support the schools... after all, our kids are grown and it would be easy to say: “Let someone else pay.’

“The way we see it, voting for the schools every few years is a great investment. By supporting good teachers and quality schools, we’re protecting the value of our home and -- most importantly -- stability throughout Kettering.

“And we’re confident that our Board of Education is managing our tax dollars well. After all, they’ve cut \$7.6 million from the budget over the past four years, and this has included the elimination of 57 positions!

“For about the cost of a pizza a month, we can vote **FOR Issue 3** and protect the quality of our schools and the stability of our neighborhoods here in Kettering. In these challenging times, that’s an investment worth making!”
